

## LIST OF SERVICES:

### Environmental Consulting

- Phase I Environmental Site Assessment (ESA)
- Phase II Soil & Groundwater Investigation
- Remedial Investigation/Feasibility Study
- Vapor Intrusion Assessment & Mitigation
- Underground Storage Tank (UST) Decommissioning
- Litigation Support
- Asbestos Building Surveys
- Disproportionate Cost Analysis
- Remedial Services - Remedial Excavation, Soil Vapor Excavation, In-Situ Chemical Oxidation/Reduction
- In-House Drilling Services

### Geotechnical Engineering

- Geotechnical Engineering Report
  - Subsurface Explorations
  - Critical Areas Evaluation
  - Erosion Control
  - Excavations & Shoring
  - Site Preparation & Structural Fill
  - Foundation & Retaining Wall Design
  - Parameters
  - Pavement Design
- Plan Review & Permit Support
- Construction Monitoring Observations
  - Shoring & Pile Installation
  - Structural Fill Placement & Density Testing
  - Subgrade Evaluation
  - Drainage Installation
  - Rockery & Retaining Wall Installation
  - CESCL Services

### Hydrogeology

- Hydrogeological Characterization
- Infiltration Testing
- Low-Impact Development (LID) Feasibility / Infeasibility
- Best Management Practices (BMP) Feasibility / Infeasibility
- Seasonal High Groundwater Determination
- Dewatering Recommendations and Analysis
- Groundwater Investigation, Mounding Analysis, and Monitoring

### Environmental Contacts

Paul Riley, LG, LHG, President, Principal Geologist  
 Megan Poysnick, LG, Senior Environmental Manager  
 Jerry Sawetz, Associate Environmental Scientist

### Geotechnical Contacts

Kristina Weller, PE, Principal Geotechnical Engineer  
 Eric Woods, LG, Senior Project Geologist  
 Collin McCracken, LG, EIT, Project Geologist II  
 Angela Gelfer, LG, EIT, Project Geologist II

### Hydrogeology Contacts

David Baumgarten, LHG, Associate Hydrogeologist  
 Elizabeth Wratten, LG, Project Geologist
